

Earth Day, Pupfish, and Fishmas 2024

"We're an eco-system"-- says it all at this year's Earth Day celebrations, reintroductions, and upcoming fishing opener

By Christina Reed
 The Hired Pen

The Bishop Paiute Shoshone Cultural Center, Bishop, CA, was filled with Earth Day participants, vendors, demonstrations, fresh baked goods, music, and tons of good ideas and goodies for Earth Day 2024.

Eastern Sierra, CA-- "We're an eco-system," says Matt Paruolo, Southern California Edison's Local Public Affairs spokesman. And, his statement resonated across a number of venues this past Earth Day Weekend, in the eastern Sierra. From reintroductions of the ancient, historic, critically endangered Owens Pupfish on Paiute Tribal lands, to vegetation management and microgrids with So-Cal Edison's help, from Inyo County's Office of Emergency Services' wildfire and disaster safety tips to the California Department of Fish and Wildlife's exhibits of unique and endangered Owens Valley fish species, there were many good ideas under the bright, sunny, Sunday, Earth Day, April 21, at the Paiute Shoshone Cultural Center in Bishop, CA.

Paiute Shoshone Cultural Center

The Paiute Shoshone Cultural Center came alive, literally and figuratively, on Earth Day, with colorful booths, demonstrations, Owens Valley artists and entrepreneurs, Inyo County's Office of Emergency Services, and many of the region's power / utility companies creating and promoting clean energy. The handouts, grab bags of resources, and free plants, flowers, and native seeds (Los Angeles Department of Water and Power handed out Indian Ricegrass seeds) were an interest point at all of the booths, and many of the participants were local representatives of state and federal agencies, which made the Earth Day Weekend seem relevant to our world.

The Bishop Paiute Tribe had volunteers walking the neighborhoods, picking up trash, on Earth Day, April 21, and the lush, green Paiute Shoshone Cultural Center grounds were beautifully on display, with the native vegetation starting to sprout in spring. Top on the Tribe's list of recent achievements, the reintroduction of the Owens Pupfish, with the Tribe and the California Department of Fish and Wildlife heading up this unique Native American project. Unique, in that, the Owens Pupfish has been on the United States Endangered Species list, the California Endangered Species list, and is a fully protected California species. And, it looks like California legislation and recognition is on its way to be enacted, on behalf of this endangered species too!

Fishmas Dreaming...

Can you feel it? Can you smell it? Can you catch it? It's the annual, Fishmas Day, the Eastern Sierra Fishing Opener, on Saturday, April 27, at dawn. And, this year's trout fishing opener promises to be a slightly different version from last year's overwhelmingly, snowy year. The Department of Fish and Wildlife reported that Crowley Lake never completely froze over in 2023-2024, and they were able to reach their usual stocking locations this year. Crowley Lake is very full, so shore-line camping isn't going to happen this year. A consumption advisory has been issued by the California Office of Environmental Health Hazard Assessment for Crowley Lake fish species and mercury content. "The advisory provides safe-eating advice for Golden Shiner, Lahontan Cutthroat Trout, Rainbow Trout, and

Southern California Edison (SCE) had a large presence at the Earth Day (Saturday, April 21) celebrations at the Bishop Paiute Shoshone Cultural Center in the brand new Community Crew mobile unit, complete with upcoming cell phone charging stations. Seen here, Joshua Hallett, Vegetation Management with SCE, helped explain Edison's mobile / outreach program, and handed out free native plants (purchased from Chalfant Big Trees).

BRONCO OF THE WEEK

LET'S CELEBRATE THE HARD WORK & DEDICATION OF OUR LOCAL YOUTH

BAILEIGH MOMBERG

Introducing this weeks Bronco of the week, Senior, Baileigh Momberg.

Baileigh is a true Bronco leader on the Varsity Softball team, she leads by example, not asking anything more then what she would be willing to do. Baileigh is one of the hardest working players every day at practice. She leads her team with her positive, supportive and calming personality. Baileigh is more then just a leader, her talents as a pitcher is such an asset to the team. In the last 3 games she's been outstanding on the mound. Striking out 36 players and only allowing 16 hits and 8 walks.

Baileigh's passion for softball is year round - when High School softball ends she will start up with her Club Softball team. After graduation she plans on going to college and getting a degree in business and play softball. **Congratulations and good luck with what is to come, you will do great!**

NOMINATED BY LISA MANUELITO (BUHS VARSITY SOFTBALL COACH)

Successful Earth Day Event Great Turnout in Bishop City Park

Bishop, CA - 4/20/24 - The Bishop Sunrise Rotary and Inyo Council for the Arts teamed up once again to host a highly successful Earth Day event at Bishop City Park. This year's event had a great turnout including vendors and attendees.

The collaborative effort was spearheaded by event organizer Jackie Blackamore. The organizers extend their heartfelt thanks to everyone who attended, volunteered, and contributed to making this year's Earth Day event an unforgettable celebration of community, art, and environmental stewardship.

As in previous years, all proceeds from the event will benefit Polio Plus, a global initiative supported by Rotary International to eradicate polio worldwide.

Reel in the Fun this Fishmas!!!

Opening Day of Regular Fishing Season set for April 27th

MONO COUNTY, Calif. (APRIL 17, 2024) – Eastern Sierra locals and visitors alike are gearing up for “Fishmas,” the official start to the regular fishing season on April 27, 2024. Lakes, streams, and reservoirs will be at very healthy levels, and most will be ice-free following a strong winter and mild spring. Unlike most of California, the majority of the lakes in Mono County are natural, fed by spring snowmelt and surrounded by the jagged landscape of the Sierra Nevada mountain range.

“Opening weekend is always highly anticipated, and we look forward to enthusiastically welcoming anglers on April 27th,” said Jeff Simpson, Mono County Economic Development Director. “Mono County Tourism’s Facebook and Instagram pages are the best resources for real-time updates and conditions as the season approaches.”

Fishmas is among the most important days of the year in Mono County, for both locals and visitors who come to cast a line in one of the region’s scores of alpine lakes and streams. More than a dozen bodies of water are stocked by Mono County, along with California Department of Fish and Wildlife, Mammoth Lakes Tourism, Bishop Chamber of Commerce, Inyo County, and private marina operators. Mono County, specifically, will stock 17 bodies of water in the region with almost 18,000 pounds of rainbow trout starting mid-April through the regular season, which ends on November 15th.

Throughout the regular season, anglers are encouraged to join the effort to keep Eastern Sierra fisheries healthy and sustainable by practicing “catch and release” - keeping only the fish they need and releasing the rest to reproduce and grow.

To encourage beginners, the state holds two “free fishing days” per year, typically the first Saturday of July and the first Saturday of September (all other regulations still apply). A free Mono County Fishing Map can also help navigate the fishable waters in the area.

For more information about fishing regulations, anglers should visit the CDFW website at: <https://fgc.ca.gov/Regulations/Current> and bookmark the regulation map at: <https://apps.wildlife.ca.gov/sportfishingregs/>.

Between now and April 27, select year-round fishing spots are still under catch-and-release rules.

Because of the location of Mono County’s fishing hotspots, there are plenty of opportunities for non-fishing family members and friends who prefer to hike, explore nature, do a little boating, or delve into the region’s rich history.

Visit MonoCounty.org to learn more about fishing in Mono County, as well as other things to do and see, lodging, and much more.

About Mono County

Located approximately 315 miles north of Los Angeles, and 280 miles east of San Francisco, Mono County accesses the east entrance to Yosemite National Park and welcomes visitors year-round. The vast playground of the Eastern Sierra is an easily reached destination via the all-weather US Highway 395, a State-Designated Scenic Byway which traverses Mono County from north to south, offering motorists tremendous vistas right from the steering wheel and countless sideroads, hiking trails, lakes, and roadside villages to explore. United Airlines offers winter service from San Francisco (SFO) and Denver (DEN) to nearby Bishop Airport (KBH). Chartered service with Advanced Airlines from several Southern California cities to Mammoth Yosemite Airport (MMH) is available winter and summer. For more information or to request guides, visit MonoCounty.org or call 800-845-7922.

Career Compass

For Businesses:
Looking to fill summer positions or internships? Career Compass provides the perfect opportunity to connect with motivated students eager to kickstart their careers. Showcase your business and discuss the exciting job opportunities available within your organization. Arrive at 10:45am, set up your table, and engage with potential high school candidates until 1:00pm. SIGN UP to host a table and make valuable connections!

For Students & Parents:
Ready to dive into the world of work? Whether you're seeking summer jobs or exploring future career paths, Career Compass has something for you. Attend the Job Fair to discover exciting opportunities and engage directly with businesses looking to hire. Don't miss this chance to explore your options and take the next step towards your future career.

From April 29 to May 1, students will embark on a journey of self-discovery and skill-building. Through engaging mini-education sessions held right in their classrooms, they'll learn the art of resume building, the importance of professional presentation, and the ins and outs of completing job applications. These invaluable skills not only prepare them for the world of work but also instill confidence and self-assurance as they step into adulthood.

The Student Job Fair portion of Career Compass takes place on Thursday, May 2. Students will be released in rounds during their 4th period to connect face-to-face with employers. Employers will also be available during the lunch hour if students have more inquiries.

Sacramento Perch." This safe-eating advice is site-specific, and is age and gender specific, so looking at the OEHHA's website is advised for the safest fish consumption. Also, the backcountry lakes, like Sabrina and South Lake, and Rock Creek Lake are still frozen, so exercise caution. However, Intake II, up Bishop Creek is ice free.

There are several Youth Fly Fishing Camps at the Bishop City Park, and in southern Inyo County there is a Kids Free Fishing Day at the Mt. Whitney Fish Hatchery, Independence, CA (Saturday, April 27, from 9 am – 12 pm), and a Trout Derby at Diaz Lake, south of Lone Pine, CA, Saturday, April 27, 6 am – 3 pm (put on by the Lone Pine Chamber of Commerce with free coffee and doughnuts at sign in), and remember...anyone 16 years of age and older needs a California fishing license. As for Earth Day, and the benefits of fishing, well, let us count the ways to cast on the successes. Conservation efforts include catch and release, lead-free weights, barbless hooks, and biodegradable fishing lines, and then there's the reel / real reasons we fish. Relaxation. Enjoy nature. A way to spend quality time with friends and family. It builds community. Happy fishing everyone!

Highlights of the Earth Day celebrations at the Paiute Shoshone Cultural Center included the much anticipated Native Fish Refuge, and the successful relocation of the Owens Pupfish, along with other native fish species to the reservation's Native Fish Refuge. The lengthy endeavor began back in 2012, when the tribe was ready to receive the endangered fish, and the tribe has been working with the state's Department of Fish and Wildlife, and the permit includes a "Safe Harbor" agreement, which will ensure the Bishop Paiute Tribe won't see greater restrictions on their land use, if these endangered species do well. It's a historic moment for the tribe. Congratulations.

Hope with Horsepower

Is a new program at Freedom in Motion that will introduce cancer survivors to the power of the horse. This program is completely on the ground (no actual horseback riding). Participants will be introduced to the Masterston Method which is an interactive method of bodywork on the horse. Survivors will recognize and use the responses of the horse to touch, so that they can find and release accumulated tension. Often the participants will feel the same release of tension as the horse. The gentle, tactile, horse focused intuitive and interactive nature of this form of bodywork creates possibilities for connection, communication and caring.

- Positive vibes
- Fun and casual setting.
- Feel alive!
- Be In the moment
- Get outdoors.

Sessions will be held on Saturday afternoons from 1-3pm. On the first and third Saturdays of each month. (weather permitting) Hours will change in May due to heat.

There will be a weekdays session offered on Wednesdays afternoons from 1-3pm. On the second and fourth Wednesday of each month. (weather permitting) Hours will change in May due to heat.

Registration required prior to participation.

No fee for session when participant is referred by physician or Cancer society. Class size limited to 6 participants at a session.

Session example:

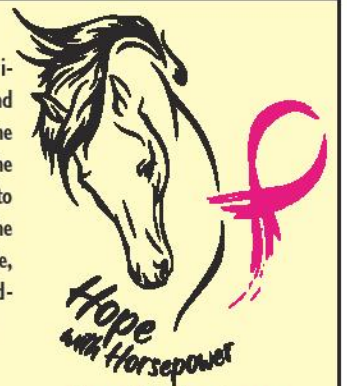

Circle of hope. where participants check in and meet each other. Participants introduced to horses. 30 minutes.

Engage and meet the horse. Touch and responding to the horse. 15-30 minutes.

Begin applying basic Masterson techniques and learning to recognize releases 45-60 minutes.

Circle of hope. Closing thoughts and responses to session.

** participants can take breaks and rest periods at anytime during session. Work at own pace.

This Saturday April 27th from 2pm-5pm

Open House

NEW PRICE!

Imagine not having to stay in motels or campgrounds after long days of hiking, fishing, rock climbing, or off-roading. Indulge in the perfect blend of comfort and scenic beauty with this welcoming 3-bedroom, 2-bathroom mobile home, nestled in the Eastern Sierras. Embrace the tranquility of owning a primary home, or possibly an affordable second "home away from home", surrounded by breathtaking mountain views, turning every day into a picturesque retreat. Spanning a generous 1728 sq feet, this residence is designed with a modern open floor plan, creating a harmonious flow between the spacious living, dining, and kitchen areas—an ideal setting for relaxation and entertaining. The three well-appointed bedrooms offer ample space for family, guests, or a convenient home office. The master suite serves as a private oasis, complete with three closets, (one of which is a large walk in), and an attached bath with a luxury over-sized tub for added relaxation. Step outside to a fenced yard, creating an ideal space for pets, play, or gardening against the backdrop of captivating mountains. Storage is a breeze with numerous solutions to keep your living space organized and clutter-free. Located within a mobile home community, the space fee conveniently covers water, sewer, and trash, ensuring hassle-free ownership of your home retreat.
